# Sayeed Ahmed

## Frontend Developer(React)

### PROFESSIONAL SUMMARY

A detail-oriented Full Stack Developer with expertise in HTML, CSS, and JavaScript, including proficiency in React.js. Strong problem-solving skills and attention to detail. Proactive and collaborative team player experienced in developing scalable code and integrating frontend components with server-side logic. Excellent communication and time management skills.

### PROJECTS

#### 1. Envoy.com clone | |

JavaScript | HTML5 | Responsive Web Design | CSS3 | Git

- Created a fully responsive web application clone of Envoy.com, a popular visitor management system.
- Implemented dynamic data fetching using JavaScript and integrated APIs to display real-time data.
- Utilized HTML5 and CSS3 to design and develop visually appealing user interfaces.
- Applied responsive web design principles to ensure optimal performance and user experience across devices.
- Utilized Git for version control to collaborate with team members and track changes.

#### 2. Amazon.in clone | |

HTML5 | CSS3

- Developed an Amazon.in clone, enabling users to browse and search for products.
- Utilized HTML5 and CSS3 to design and structure the web pages with a focus on user experience.
- Implemented responsive web design to ensure compatibility and optimal display on various devices.
- Worked independently to create a functional and visually appealing frontend application.
- Demonstrated proficiency in HTML5, CSS3, and frontend technologies.
